12	Bag of Words	6		
13	Build a Smart Sorter	5		
14	Convolution by Hand	5		
15	Play with Chatbots	6		

UNITS COVERED

UNIT 4	UNIT 5	UNIT 6	UNIT 7	TOTAL
5 programs	4 programs	3 programs	3 programs	15 programs
Statistical Data	Computer Vision	NLP	Advance Python	minimum required

How this file is marked: Fifteen programs is the **minimum**, not a target. Each entry needs the **aim, the code, your own screenshot, an observation in your own words**, and the working shown for anything calculated. A file of pasted code with no observations scores a fraction of one where every entry is completed properly.
